“ I'm sorry to hear of Marty's death. I got to know him and his family through my decades- long friendship with his older brother John. I noted early on in my contacts with them that the Brechon family approached life challenges with a positive approach evidencing persistent courage, kindness, generosity and good humor punctuated by frequently smiles. They all (encouraged by their Mom Margaretta and Dad Barney) took pleasure in helping other non-family members dealing with their own challenges - - as they did for me on more than one occasion. John was stricken by polio as a young child - - leaving him to cope with one paralyzed leg for the rest of his life. NEVER did John air a complaint about his hardship as we pursued many activities together. Marty evidenced those same resilience as his brother John in coping with medical or other troublesome issues as he traveled down life's pathway. I know his family is proud of him - - as they certainly should be.

“ My dearest Jean, I can not put into words how sad I am with Marty's passing. I remember the bus rides to Newman every day gabbing with Marty, who always had on his beloved CPO jacket. We shared a common bond, with both of us working at different hardware stores. Then as we got older and double dated, the four of us were inseparable and shared many good times. We will never forget the laughter and fun times at the Dog N Suds, Midway Drive-In and cruising back and forth on Galena Avenue. Marty was one of a kind and was a great guy. He will be missed by soooooo many. My deepest sympathy to you, John and the rest of the Brechon family.

“ I grew up 2 houses down from the Brechon's on Galena Ave. I remember when Marty had heart surgery and Margaretta made the most delicious bread on the planet. They were a great family and part of my childhood so I hope they are having wonderful memories of Marty and prayers and thoughts to them. Ann Dempsey

“ When we moved to Dixon in 1961, Marty was the first kid I met in the neighborhood. He had recently had some kind of "mysterious" (at least to a five year old) heart surgery. Marty was a true pioneer and perhaps guinea pig for many of the lifesaving treatments and cures we take for granted today. Heart surgery, valves, terrifying blood clots and things later in life, yet he always carried on with that smile. We fished every inch of banks on the river in town and loved the old fenced off thing around the power plant which held monstrous carp. We hunted grasshoppers in what was then a big field in the middle of his block and would catch tadpoles in the swampy ground behind Madison School. Later, we would ride the bus to Newman every day and that was usually a great time too. May God bless and keep him and I offer my sincerest condolences to Jean and John, Mary and Marcella and all who knew and loved him.
