“ *I had the pleasure of working with Bud for a number of years at Henry Pratt. I was an engineer who did a lot of the machine programming and work with Bud on a number of machines. We had the chance to go on a couple of overnight trips to learn about the machines and I really enjoyed taking him out for nice steak dinners. Great person to work with - my condolences to all his friends and family.*

“ So sorry to read about Bud's passing in today's paper. He was the most upbeat and happy person. He always had a smile. My husband and I recalled being with him and Joyce at an awards banquet for Henry Pratt and the conversation turned to how each couple had met at our table. It turns out that every couple had been introduced on a blind date. I don't remember the exact story but remember that Bud and Joyce married quickly after meeting before Bud went to serve his country. It was a lovely story and a testimony to true love. I know he will be sadly missed by everyone whose life he touched. It was an honor to know him.

“ Buddy and I were Classmates in high school @ Community H.S. in Sterling. We have been good friends ever since then. I will never forget his great sense of humor and smile. We both enjoyed the game of golf. I was able to spend some time with him in Dixon in February for a few moments before he passed away. Like always, he smiled and was upbeat. May God bless my friend.
