“ *Holly, the many years that your family served Our Saviors Lutheran Church in Rockford were very special times. What could be more fundamental to the strength of a congregation than being greeted with warm smiles and a hug or handshake upon arrival? Geoff's humor and kindness are stamped on our hearts. -Pam and Keith Shaver*

“ *In 1960 at Maud Johnson elementary school the entire school put on an Olympics. Two students were selected to be the announcers for the whole performance. I'd like to think that we were chosen for the honor because of our excellent speaking voices. Geoff and I shared the announcing duties and I still remember the thrill of being on a platform in front of all the students and parents. Geoff and I did receive praise for the work we did and it's incredible that I remember both the experience and Geoff 60 years later. Sorry for the your loss, he was one of the good guys.*
