“ *I cannot begin to imagine this world without Linda's presence. I learned so much from her as a teacher but more importantly as a friend. Linda was an avid reader, a "health nut" before it was common, a lover of life and all living things - especially plants and cats. As a fresh graduate, I was thirsty for knowledge. Linda was a master teacher. Her intelligence, expertise in young children, compassion for those in need and love of life were inspiring and contagious. Linda was not only physically beautiful, she was a very classy lady. She was charming, but had a very strong sense of who she was - a strong woman. I respected her immensely and still do. Linda created magical moments. One of my favorite memories of the many times we were together was when she invited me to go with her to Chicago to the ballet. I had never been before, so thought it might be a fun adventure. We sat in the balcony and were reviewing the program when an announcement was made. I still remember the exact quote... "Substituting for Kevin MacKenzie will be Mikhail Baryshnikov." We both looked at each other, mouths open, gasped and savored each moment of that performance. It was truly a remarkable event. Linda was an excellent listener and confidant. For that I will be eternally grateful. Her wisdom, humor and generous spirit have always been appreciated. I guess it doesn't surprise me that she fought this beast called cancer so gallantly, gracefully and with such dignity. Linda was a fighter. Her spirit remains strong. The last thing I said to Linda in the hospital as we were saying our goodbyes, was, "So long twinkle toes. Go dance in the sky." I can't help but think Linda is dancing with those she cherished... her parents, her nephew, her sons. For those of us who remain here on this planet...the loss is immense, but I can't help but thank my lucky stars that Linda Hutson McLane Dummett was a part of my life. What a blessing she has been!!*

“ *Linda will be missed. She had class, and was great fun to be with. One of her distinguishing features was her laugh. She was generous with it; it was hearty, warm, contagious, and genuine. I can still hear it...*

“ *While it has been several decades since I last saw and spoke with Linda, my late 60's/early 70's friendship acquaintanceship with Linda left me with an indelible impression of her as a genuinely kind and caring person (too rare a set of qualities, it seems,in this hectic modern world.*

My sincerest sympathies to all Linda'sfamily members.
